

Quick guide for how to create a master account.

Start SignCut and click the help menu and then “My Account”

When you come to my account you scroll down until you see the section for “Master account”. Click “Create master account”.

In the dialogue that opens you enter an E-mail address and a password. Then click “Create account”.

You will now get a confirmation message in the top over the Account Overview section.

Now you have a master account that you can connect multiple SignCut installations to.
